Plan Description

If you are looking for an efficient way to build a house, look no further than a post frame home. The Bozeman plan provides a great place to live as well as work. The house gives off a great country feel with a large wrap-around covered porch. On the work side, the house includes a 2 car garage. Inside the home, the great room is warmed by a fireplace and lies under a soaring cathedral ceiling. The kitchen includes a large island and a walk-in pantry. The Master bedroom can also be found on the main floor and contains his/her vanities and a walk-in closet.
