Plan Description

Cameron is a beautiful and affordable 1 story house plan. The exterior is highlighted by board and batten siding and a shed dormer to give it that modern farmhouse look. At just over 1400 sq ft, this house packs a lot of features into an efficient footprint. As you enter the home, you'll find yourself in a magnificent great room that lies under a soaring cathedral ceiling and is warmed by a cozy corner fireplace. The dining room and kitchen flow nicely in an open layout. The kitchen includes a large walk-in pantry. Tucked behind the great room, you'll find the wonderful master suite. The master bedroom lies under a decorative trayed ceiling and includes his/her vanities and a large walk-in closet. Bedroom 2 shares a bathroom with the main living space of the home. The home's 2 car garage accesses the home through a convenient mudroom with a bench and lockers.
