## Plan Description

Classic detailing and a tasteful blend of exterior materials enhance the curb appeal of this traditional style, 1-story house plan. Just inside from the deep covered front porch, guests are greeted by views into the great room, with views to the rear through a bow of windows. The kitchen, breakfast area, and hearth room seamlessly extend this open space. The kitchen enjoys plenty of counter space, an island work station with breakfast bar, built-in cantry and walk-in pantry. On the other side of the home, the master suite includes a bath area with dual vanities, corner tub, and a walk-in closet. Bedrooms 2 and 3 are brightened with natural light through generous windows and share a central hall bath. The 3-car garage accesses the home just off the entry area and it includes a workshop area.
