## Plan Description

▪

The Clayton is a cute cottage style garage with an attic above. The attic is accessed by a hatch stair. In the attic there are cathedral ceilings to allow for enough head room while up there. The window in the gable allows for ample amount of sunlight and fresh air. The garage has plenty of space for 2 cars. On the side of the garage lies a person door for easy access in and out without having to use the overhead door. Use this garage for you vehicles, as a workshop, or even just a storage building.
