Plan Description

The Hither Hills is a beautiful 3 Car Modern European Cottage style house plan. The steep pitches, short gable overhangs, and wood accents give this home amazing curb appeal. On the inside you will find a large great room with a tray ceiling. The dining room and kitchen are covered by a cathedral ceiling with faux wood beams. The large kitchen sink arched window looks out to the rear of the home, bringing in ample amounts of sunlight. A walk-in pantry and coffee bar are just off the kitchen. This house has 3 bedrooms. The secondary bedrooms share a jack-and-jill bath while the master bedroom has its own. The master bedroom is covered by a soaring cathedral ceiling and has a built-in fireplace. The master walk-in closet connects to both the bathroom and the laundry room. A separate living room near the entry could be used as an office or any flex space.
