Plan Description

The Maryville plan is a beautiful traditional style house plan. The exterior of the home features contrasting traditional lap siding with stone and wood accents. A front covered porch greets guests into the home. Just inside the front door, you'll find yourself in the middle of a wide-open layout. The family room is warmed by a fireplace and windows that allow in plenty of natural light. The kitchen includes a large island with a snack bar and a wonderful walk-in pantry. Upstairs, you'll find the home's 4 bedrooms. The master bedroom is on the right side of the second level and features a decorative trayed ceiling. The master bathroom has a walk-in shower, his/her vanities, and dual linen closets. The master bedroom also includes a walk-in closet with a built-in dresser. The other 3 bedrooms share a conveniently located hall bathroom with dual vanities. Back on the main floor, the 2-car garage accesses the home through a convenient mudroom with a catch all and a coat closet.
