## Plan Description

Our Millsdale plan is a quadplex of our Fleetwood plan. It is a gorgeous modern farmhouse plan with 1711 square feet, 3 bedrooms, and 3 bathrooms in each unit. The exterior of this home with board and batten siding, wood accents, metal roofing, and dark windows gives this plan a traditional modern farmhouse feel with uniqueness still throughout. Walking in through the front door just under the covered patio walks you straight into a gorgeous entryway, met with a lovely staircase on the right or office space with a built-in desk on the left. A mudroom with access to the 1-car garage can also be found here, also including a built-in bench with hooks for coats and bags. Continuing throughout the house is when you will find a powder bath, just before stepping into a spacious open concept room, containing the great room with built-in shelving and a fireplace, a dining room, and a kitchen with a walk-in pantry and large kitchen island. Heading upstairs is where all of the bedrooms can be found. The master is complete with a 9' ceiling, walk-in closet, private Hollywood bath with a double vanity, and access to the laundry room. Bedrooms 2 and 3 can also be found here, which share a hallway bath.
