Second Wall Height	8'

**Plan Description**

At only 26 feet wide, this 1,962 sq. ft. 2-story house plan will give any small lot a huge personality. Just inside from the front covered stoop, guests are welcomed into the family room with its fireplace and views to a rear covered deck. The kitchen and breakfast area continue the open arrangement of the main floor for a surprisingly spacious feel. The kitchen itself offers a breakfast island workspace, generous counters and an adjacent walk-in pantry. The breakfast area is flooded with natural light and accesses the rear covered deck for expanded dining options. Just off the kitchen, a mudroom with pantry, bench, lockers, coat closet and handy catch-all area accesses the home's 2-car, front-load garage. The second level is host to all three bedrooms. The master suite has a 9-foot-high boxed ceiling and its bath area features a 2-sink vanity, compartmented toilet, shower and sizeable walk-in closet. Bedrooms 2 and 3 share a central hall bath.
